

Dear

I am **one of your constituents who votes**, and I would like to express my concern about the situation in Northern Syria involving the treatment of the Kurdish people.

I encourage you to exercise the power of your office to preserve our nation's partnership with the Kurdish people, particularly in keeping with our tradition of standing with our allies and providing protection for the victims of persecution, wherever they may live. I believe in the humanitarian values that have been the hallmarks of America and expect my elected officials to represent these values.

Please support the Kurds.

Thank you for your consideration.

Sincerely,
